

Salt Sauna

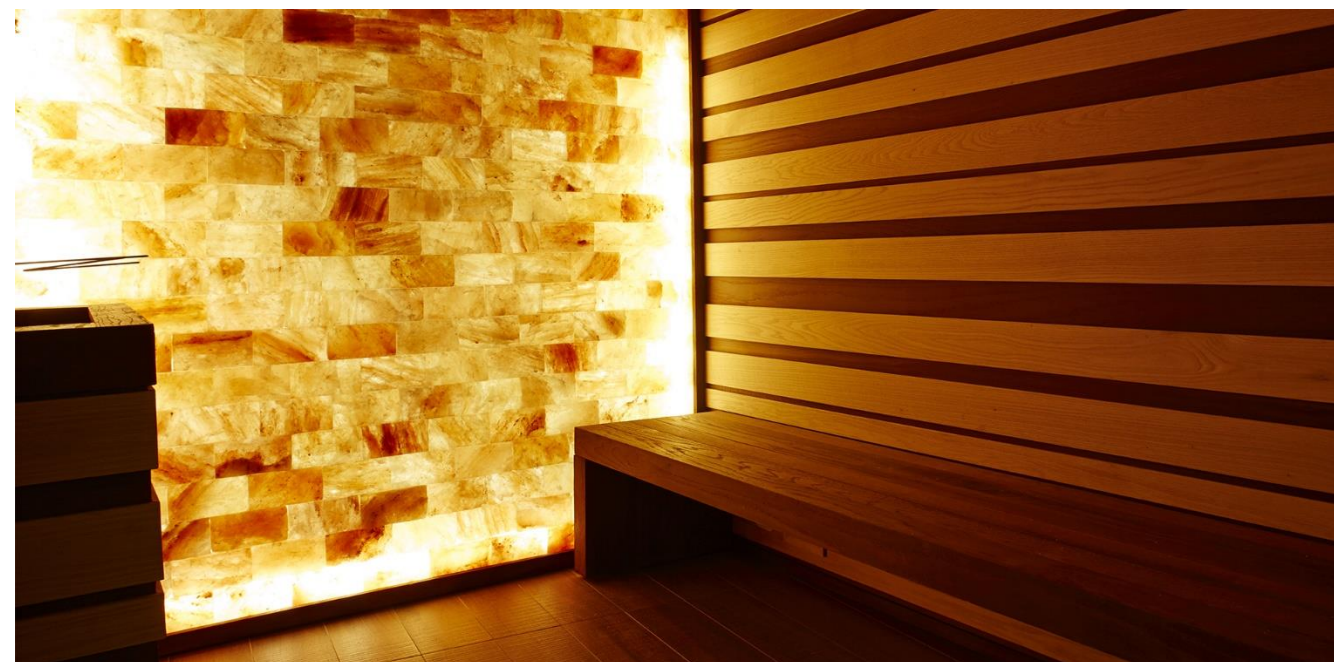

With its simple but decisive character, **Salt Sauna** by Starpool can be seamlessly integrated into any environment.

Natural materials such as **mineral salt** and **oak wood** melt into a harmonious, **friendly and seductive array**.

The utility of sauna heat, which thanks to the internal stove regulates the intensity of temperature (50 – 60°C) and humidity (20%) allows for a microclimate suitable for natural ionization process of mineral salt—colours, lights, aromas and fragrances for a mix of regenerated and sensory elements.

The Beauty of the Salt Sauna

Salt Saunas provide a unique, multi-sensory relaxation experience, right in your home or commercial property.

The natural outlook and relatively moderate temperature of salt saunas create the sensation that you're by the sea while rejuvenating your skin and positively impacting your breathing.

Natural salts, such as those sourced from the Himalayas, lends to a profoundly authentic and long-lasting luxury wellness experience for all who visit.
