

Starlounge

Enveloping and ergonomic, **Starlounge** has been designed to ensure perfect rest. Its rounded, sinuous forms hold the body in a soft embrace.

At the same time, its dynamic, sleek design is further emphasised by elegant coverings, embellished with visible stitching, providing these loungers with versatility and adaptability for every ambience and style.

Sinuous Form: The ergonomic form of Starlounge guarantees optimal adhesion of the body: the legs remain raised with the knees slightly above the height of the heart, thus stimulating the circulation.

Slip Resistant Support: The structure is supported by four invisible anti-slip supports to guarantee perfect stability.

High Quality Stitching & Fabrics: The high-quality finishes with seams delineating the outlines lend the fabric maximum stability and durability. The quality of the coverings meets the highest standards.

Lightweight: Sturdy and stable, yet thanks to its wooden frame very light: filled with non-deformable polyurethane foam covered in padded Dacron.

Dimension: 190 L x 70 W x 70 H / 32 Hs
